## 'FORWARD BY THE RECTOR'

Assalamualaikum wbt.

Firstly, I would like to extend my warmest congratulations to the Division of Research and Industrial Linkages of UiTM Cawangan Melaka for your effort and dedication towards envisioning and realizing the Fourth Edition of Consultant Directory 2022.

The Consultant Unit's objectives are to impart information and provide research training, consultations and publications. Thus, by publishing more additional editions of the Consultant Directory could further initiate and sustain more consultation projects and inspire collaborations with government agencies, private companies, statutory bodies, and multinational companies.

This directory is important as it is inline with the aim of the university to become one of the world-renowned research and entrepreneurial universities. Future linkage with the industries would be made possible and achievable as this book highlights useful information of UiTM's teaching expertise for the industries to take into consideration. I hope that this Fourth Edition of Consultant Directory will open more doors for collaborations and consultation projects in the future.

Congratulations again to the Division of Research and Industrial Linkages of UiTM Cawangan Melaka and I hope that in the future, the unit will continue to strive.

**PROFESSOR DR. ABD HALIM BIN MOHD NOOR**  
Rector / Advisor of the Project (Consultant Directory)  
Universiti Teknologi MARA Cawangan Melaka

### **'A WORD FROM THE DEPUTY RECTOR'**

Assalamualaikum wbt.

I would like to first and foremost praise Allah for his blessings and guidance, which allows this Fourth Edition of the Consultant Directory of Universiti Teknologi MARA (UiTM) Melaka to become successful. This directory would not be possible without determination, hard work and perseverance of all those who are passionate about this project. Recognizing that, I would like to extend my heartfelt thanks, appreciation and congratulations to each of those involved.

This directory plays an imperative role in publicizing vast and diverse expertise of UiTM Melaka's teaching professionals to the industry. Today, numerous industries are in the quest of searching for assistance and expertise from knowledgeable and experienced professionals to assist and support them in the development of the industry. With this Fourth Edition of the Consultant Directory, I hope that more future engagement with the industry will increase and continue to flourish.

Allowing teaching experts to showcase and market their expertise, knowledge and ideas in various fields is also one of the charms of the Consultant Directory. These teaching professionals could critically invent or innovate solutions to issues related to the lessons. In return, this would mould these experts into being active and critical thinkers. Dedicated experts could also expand their network with the industry, build more collaboration and keep up with the demands of the industry.

Finally, I would like to express my warmest congratulations to the members of the working committee and to everyone who has contributed to making this Fourth Edition of Consultant Directory of UiTM Melaka an honoured success.

Thank you

**DR. NUR HAYATI ABD RAHMAN**  
Deputy Rector / Chairman of the Project (Consultant Directory)  
Division of Research and Industrial Linkages  
Universiti Teknologi MARA Cawangan Melaka

## 'FOREWORD BY PROJECT COORDINATOR'

Assalamualaikum wbt.

Alhamdulillah, all praise is due to Allah SWT, as He has granted me with this opportunity. May He shower us with more blessings in the future.

I am a firm believer of the power of cooperation and collaboration. With this opportunity, I would like to congratulate everyone who has contributed and made this Fourth Edition of Consultant Directory a success. It could not be made possible without the passion, commitment, hard work, and belief of those involved in the process of producing this Consultant Directory. This is all of us and my heartfelt thanks to all.

The main objective of this Consultant Directory is primarily to provide and share recent knowledge, information and projects done by experts of various fields in their line of work. Through this, readers could expand their view point and understanding towards the latest development of these teaching experts. It also opens doors of opportunities for future endeavours with the experts from the industry. Collaborations such as these should be initiated and continued in order for both to thrive and develop.

Again, I would like to express my thanks and appreciation to everyone involved in making this Fourth Edition of Consultant Directory come true.
