FOREWORD

Assalamualaikum W.B.T. and Salam Sejahtera

First of all, I would like to sincerely congratulate the committee members for all the initiatives and efforts in producing the third edition of the PJI EDGe 2018. It was a tremendous improvement from the previous report. This report is a culmination of evidences from the Research and Industry Linkages Division (PJI) of UiTM Cawangan Melaka that presented the information on various projects, research and activities from our researchers.

PJI has proven that it is indeed one of the backbones that helps promote UiTM Cawangan Melaka especially in the areas of research, invention and innovation, entrepreneurs' development and industry linkages. This report is also a good indicator in achieving the university's objective of easily tracing their records in order to show annual performance and to be a benchmark for future performances.

Finally, I would like to express my gratitude and appreciation to all PJI team members who have successfully worked together to meet the objectives as specified in the indicator set by the PJI Unit. My sincere appreciation also goes to all PJI EDGe committee members for wonderful efforts and contributions in ensuring the success of this publication. May all your good deeds be accepted and may Allah reward all of us with His blessings.

Thank you

FOREWORD

Assalamualaikum W.B.T. and Salam Sejahtera

First and foremost, I wish to express my utmost gratitude to Allah S.W.T for bestowing upon us His blessing to efficaciously complete the third edition of the PJI Edge. In my capacity as the Deputy Rector for Research and Industry Linkages (PJI), I would like to congratulate the teams from UiTM Cawangan Melaka for their excellent efforts in realising the aims of PJI through research publication, consultancy, entrepreneurial activities, community work as well as industry linkages. These achievements are indeed the results of the cooperation and tireless hard work of all PJI units that have successfully implemented their well-strategized plans.

The initiative to produce this annual report is to appreciate the accomplishments by all researchers, academician and staff of UiTM Cawangan Melaka in the year 2018 with the compilation of all projects and activities for the past one year. Undeniably, this record can help us to track an adequate amount of information for future performance indicators planning. It is our hope that this report will not only be useful for UiTM Cawangan Melaka staff but also serves as the main reference for our non-UiTM acquaintances to witness the achievements by PJI UiTM Cawangan Melaka as a whole.

Last but certainly not the least, I would like to express my utmost gratitude to the Rector's Office, the units of PJI, the staff of PJI and the PJI EDGE committee for their dedication to ensure the success of this publication. May all your good deeds be accepted and may Allah reward all of us with His blessings.

Thank you

**RESEARCH
MANAGEMENT
UNIT
(RMU)**

About RMU

Research Management Unit (RMU) is one of the main units under the Division of Research and Industrial Linkages. There are four main sub-units under RMU. (1) Grant (Private and Government) Unit, (2) Innovation and Commercialization Unit, (3) Consultancy and Research Contract Unit and (4) Centre of Excellence Unit. The Reporting Unit is an ad-hoc unit under RMU.

Grant (Private and Government) Unit

This unit is set up to encourage and facilitate research activities through organizing training programmes, sharing sessions and coordinating internal resources to support the research activities. This unit actively shares any information and updates regarding opening of grant application from any organisations. Moreover, this unit also organizes yearly internal assessment workshop to help the lecturers polish their Fundamental Research Grant Scheme (FRGS) application.

Innovation and Commercialization Unit

The main activity under this unit is to organize the Melaka International Intellectual Exposition (MIIEEx), that is the innovation competition. Apart from that, this unit is also responsible to identify and select innovation products for commercialization and application of intellectual property (IP). Besides, several innovation related workshops are held with the purpose of communicating important information regarding the procedures and documents needed in applying for the IP.

Consultancy and Research Contract Unit

The main objective of this unit is to share information and to provide trainings in relation to consultation projects which cover basic briefing, financial management and marketing of expertise. Through the unit, more consultation projects could be developed and more collaboration with government agencies, private companies, statutory bodies and multinational companies could be established.

Centre of Excellence Unit

This unit is responsible to assist any lecturers who wish to set up the special interest group (SIG). It helps with the submission process and monitor the status for each SIG submission with the Research Management Centre in Shah Alam. The establishment of SIG at each faculty level will help to enliven the research activities and produce more publications of research work.
