“FOREWORD BY THE RECTOR”

Assalamualaikum Wbt.

First of all, I would like to congratulate the consultation unit under the Research and Industrial Linkages of UiTM Melaka on its first edition (2016) of Consultants Directory.

One of the main objectives of the consultation unit under the Research and Industrial Linkages of UiTM Melaka is to share information and to provide trainings of research, consultation and publications of research works. Through the unit, more projects of consultation could be developed and more collaboration with government agencies, private companies, statutory bodies and multinational companies could be established.

In line with UiTM's commitment in realising the university's strategic aims to become a world-renowned Research-intensive Entrepreneurial University, I believe that this directory is highly significant as it provides useful information of the expertise of our lecturers for the industries to cooperate with.

I would like to extend my special thanks and appreciation to the Vice Chancellor of UiTM Prof. Dato' Dr Hassan Said and all the Executive Management Team of UiTM for their continuous support in all the projects undertaken by the UiTM Melaka.

I would also like to take this opportunity again to congratulate the unit for the successful directory. It is hoped that many will find this directory a helpful tool in achieving the vision which is to be an excellent management centre for world-class research, development, consultancy and research publication.

Assoc. Prof. Dr. Mohd Adnan Hashim
Rector/Advisor of the Project (Consultants Directory)
Universiti Teknologi MARA Melaka

“A WORD FROM THE DEPUTY RECTOR”

Assalamualaikum wbt.

Alhamdulillah, all praises to Allah the Almighty for his blessings on the success of the first edition of Consultants Directory of Universiti Teknologi MARA (UiTM) Melaka. I would like to take this opportunity to express many thanks to those who have put tremendous effort, time and energy to make this directory a success.

The relevance of producing this directory is to publicise the field of expertise of UiTM Melaka's lecturers. As it is now, many industries require the assistance and expertise from experienced professionals in various related disciplines to leapfrog to the next level of development in their field. As such, this directory hopes to provide the necessary information needed to fulfill industry's goal.

Apart from that, this directory is also created as a tool for lecturers to market their expertise in diverse fields. This directory also serves as an opportunity for lecturers to expand their network and know-how to attract more collaborations, both for the short and long term benefits.

My special thanks and appreciation is especially dedicated to the Vice Chancellor of UiTM, Prof. Dato' Dr Hassan Said and all the Executive Management Team of UiTM as a gesture of acknowledging their support for all the projects undertaken by the Research and Industrial Linkages Division of UiTM Melaka as well as UiTM Melaka.

Finally, I would like to take this opportunity to extend my heartfelt congratulations to the members of the working committee and to those who have contributed directly and indirectly in making the first edition of Consultants Directory of UiTM Melaka a success.

Assoc Prof. Dr. Shafinar Ismail
Deputy Rector / Chairman of the Project (Consultants Directory)
Division of Research and Industrial Linkages,
Universiti Teknologi MARA Melaka

PREFACE

Assalamualaikum wbt.

In the effort to establish UiTM Melaka as a centre for excellence in academic and entrepreneurship, the Research and Industrial Linkages of UiTM Melaka has taken the initiative to develop a database named Consultants Directory. This is the first edition of Consultants Directory which is available in a form of a link to the official website of UiTM Melaka. As a systematic reference and database, this directory will serve as a guide for lecturers to market their skills, potentials and products based on the need, choice and preference of customers that require their consultation expertise.

The directory is organized in two parts; Part 1 and Part 2. Part 1 is divided into seven sections; A to G, that contain the list of consultants from the seven faculties at UiTM Melaka. Part 2 is divided into three sections; A to C based on the three academic centres. The lists of consultants in Part 1: section A-Faculty of Business and Management; section B-Faculty of Accountancy, section C-Faculty of Art and Design, section D-Faculty of Hotel and Tourism Management, section E-Faculty of Communication and Media Studies, section F-Faculty of Computer and Mathematical Sciences and section G-Faculty of Plantation and Agrotechnology. Part 2, section A-Academy of Language Studies, section B-Department of Law and Section C-Academy of Contemporary Islamic Studies (ACIS).

I am confident that this directory would be able to serve as a platform for the lecturers to register their products and expertise and be actively involved in consultation projects in a win-win situation.

I would also wish to take this opportunity to express my sincere thanks and appreciation to all those involved in the development of our first edition of Consultants Directory especially to the Rector and Deputy Rector of Research and Industrial Linkages Division for their valuable advice and continuous support throughout the project; and to all the team members for their hard work, commitment, effort and cooperation.

Nur Farahah Mohd Pauzi
