FOREWORD BY
THE RECTOR
UNIVERSITI TEKNOLOGI MARA MELAKA

First and foremost, I would like to congratulate the Research and Industry Linkages Division of UiTM Melaka, or better known as PJI, for successfully launching their first annual report, PJI EDGe, this year. This report provides the evidence of all the initiatives taken by all the nine units under PJI in the year 2016. It is indeed wonderful that academicians, researchers and staff from UiTM Melaka have been able to make the time and effort to partake in various projects and activities that contribute towards the production of world class researches, innovations, consultations and publications.

What was achieved in 2016 should not stop there. These achievements should serve as the catalyst for us to generate and take on more initiatives that propel UiTM Melaka towards greater excellence. This is a sure way of improving existing methods, materials, and teaching and learning environments; and expanding on falsified or acknowledged concepts. This is the kind of climate that we need if competence and effectiveness are to be accomplished in any given field in institutions of higher learning.

Last but not least, I would like to take this opportunity to thank the PJI EDGe committee members who have worked so hard to put this annual report together amidst their busy schedules and responsibilities. I would also like to thank all the writers for sharing their achievements with us.

Thank you.

ASSOCIATE PROFESSOR DR MOHD ADNAN HASHIM

FOREWORD BY THE DEPUTY RECTOR (RESEARCH & INDUSTRY LINKAGES)

As the Deputy Rector for Research and Industry Linkages (PJI), it is with great excitement that I write this foreword for its first annual report, PJI EDGe. This report is particularly relevant in the present scenario at UiTM where research is being emphasized as a prime aspect in the cultivation of intellectual and academic prowess. The timing of this launching could not be more suitable following the Vice Chancellor's 2017 New Year message on the importance of scholarship of teaching and student development for the advancement of the university. This is a testament to what we can do and achieve in UiTM Melaka.

PJI has come a long way since its inception in 2009. In its infancy, PJI started with internal innovation programs or RIID which was later rebranded to MIIEx, Melaka International Intellectual Exposition, to include participations from individuals and international organisations. Consultative projects with corporate bodies include Shapadu Group, PERKESO, Yayasan Warisan Johor (YWJ), as well as an international project with Dow Agrosciences. Beginning 2014, PJI has also signed a number of MoUs (Memorandum of Understanding) with local and international institutions, including industry partners such as Credit Counselling and Debt Management Agency (AKPK), and Armadillo Safety Berhad.

Indeed, I am very proud that UiTM Melaka has secured the highest number of FRGS grants among all the UiTM state campuses in 2016. This has been achieved through hard work and commitment given by the nine units of PJI: Industrial, Community, Alumni and Network (ICAN), Research Management Unit (RMU), MASMED, Journal and University Publication (JPU), Tunas Mekar, MoU Unit, Innovation Unit, Excellence Entity Unit, and the Centre for Islamic Philanthropy and Social Finance (CIPSF) or previously known as IKAZ. Given their impressive track record, I believe that PJI will continue to reap further successes in the future.

Finally, I would like to express my heartfelt thanks to the office of the Rector, the nine units of PJI, the staff of PJI, and to the dedicated PJI EDGe committee.

Thank you.

ASSOCIATE PROFESSOR DR SHAFINAR ISMAIL
